DURON SHELVING

Injection - molded shelves combine a very attractive, streamlined look with lightweight construction and durability. Featuring a rounded, "Bullnose" front, these shelves have become extremely popular in the retail environment. Use them on any type of shelf bracketing - Slatwall, Gridwall or Standard Mount (13" shelves fit on 12" brackets; 15" shelves on 14" brackets). We stock the following shelves in your choice of white, almond, grey and black.

STEEL DISPLAY SHELVING

Still a "fixture" in the retail world, this flexible, heavy duty system cannot be beat when it comes to free - standing displays. Whether you need perimeter wall shelving or a 2 - sided "island" display we'll get you the right components at our best price.

In order to provide you with the best possible service, we'll need as much of the following information from you as possible.

1. STYLE OF SHELVING

(WALL / PERIMETER OR ISLAND / DOUBLE - SIDED)

2. OVERALL LENGTH OF EACH SHELVING UNIT OR "RUN"

3. IDEAL HEIGHT OF EACH SHELVING "RUN"

4. IDEAL DEPTH OF SHELVES & APPROXIMATE SPACING BETWEEN THEM

Many special options are available

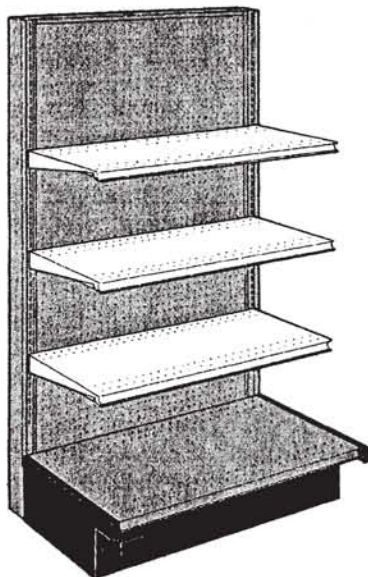

Some common shelving configuration examples:

F9W472WE A 48" w x 72" h wall section with a 19" deep base deck and three 16" deep shelves.

F9W472 Each additional 48" w wall section configured the same for addition to the above unit.

F9I454WE A 40" w x 54" h island section with 16" deep base decks, four 16" deep shelves (two per side), and two 13" deep shelves (one per side).

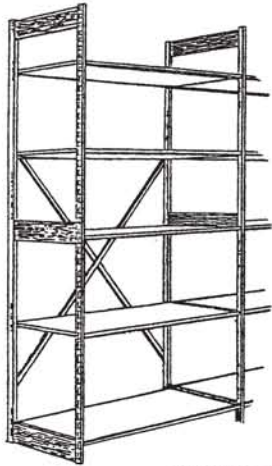

F9I454 Each additional 48" w island section configured the same for addition to the above unit.

STOCKROOM SHELVING SYSTEMS

There are two things to keep in mind when picking a storage shelving system:

1. The **MAXIMUM WEIGHT** you expect a shelf to hold
2. The **SHELF SIZE** you need

Choose from the following sets of specifications:

STORAGE SHELVING

SECTION SIZES AVAILABLE:

12" - 30" widths x 3' - 4' lengths x 4' - 12' heights

AVERAGE WEIGHT CAPACITIES:

500 lbs. per shelf / 1,500 lbs. per section

Common Storage Shelving Example:

F955484WE A 48" w x 84" h shelving unit with five 12" deep x 48" w shelves and one crossbrace.

F955484 Each additional 48" w section configured the same for addition to the above unit

WIDE SPAN RACKING

SECTION SIZES AVAILABLE:

18" - 48" widths x 4' - 8' lengths x 4' - 16' heights

AVERAGE WEIGHT CAPACITIES:

2,000 lbs. per shelf / 10,000 lbs. per section

Common Wide Span Racking Example:

F9W5369672WE A 72" w x 96" h x 36" deep rack with four shelf levels.

F9W5369672 Each additional 72" w section configured the same for addition to the above unit.

PALLET RACKING

SECTION SIZES AVAILABLE:

24" - 48" widths x 4' - 12' lengths x 4' - 16' heights

AVERAGE WEIGHT CAPACITIES:

4,000 lbs. per shelf / 17,000 lbs. per section

Common Pallet Racking Example:

F9PR4814496WE A 96" w x 144" h x 48" deep rack with four shelf levels.

F9PR4814496 Each additional 96" w section configured the same for addition to the above unit.

For each of the above shelving systems, individual sections are generally connected together to form the overall required "run" size. Please call or stop by for any assistance you may need.

DISCLAIMER

Please note that the weight capacities listed are recommendations only. FRSF and the manufacturer are not liable for accident, injury or loss cause by failure of these shelving units.
