with 3" on-center display groove spacing.*

**We welcome your custom Slatwall order - whether your need is for  
aluminum inserts or a custom color match, we'll take care of it!**

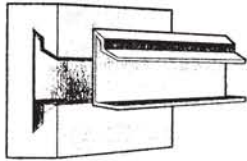

See SECTION S for our low, **DIRECT-SHIP** pricing on these special orders.

### **HELPFUL INSTALLATION TIPS:**

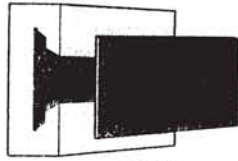

Cut Slatwall panels face up on a table saw or face down with a circular saw.

Use a sharp 60-80 tooth blade for best results. Attach Slatwall to existing drywall or directly to studs in new construction (if local building codes permit).

On standard panels, use two-inch or longer drywall screws installed through the grooves and into wall studs. For panels with aluminum inserts drill pilot holes first, then use two-inch or longer #6 pan head screws. A minimum of 24 screws should be evenly spaced throughout each panel. Construction adhesives may also be used to provide a more permanent installation.

**SLATWALL GROOVE TREATMENTS**

Dress up your **Slatwall** with our plastic trim strips and groove inserts. Add color to an entire wall, or cover only a few grooves with a contrasting color to form a unique accent "stripe."

Use your imagination!

**B2ST Color Strips**

Side - installed strips available in white, black, grey, red or green. Sold in 128' rolls.

**B2SN Color Snaps**

Front - installed inserts available in white, black, dark grey, light grey, brown, red, green and burgundy. Sets contain 16 strips. Note: Each set will cover a slatwall panel with 3" on - center grooves.

**SLATWALL EDGE TREATMENTS**

Finish your Slatwall edges the easy way with these 8' plastic moldings. Available in white, black, grey, almond and red.
