WOODEN DISPLAY FIXTURING

Have you considered using it in your retail environment?

*There is no other material with the warm and cozy appeal of real wood. Maybe it's the imperfection of it's graining and color that make it seem friendlier than the more common glass, chrome, and laminated fixturing. Perhaps it's because wooden surfaces absorb light, rather than harshly reflecting it. For whatever reason, **people are attracted to it - certainly a plus for your store.** It has even become popular in more modern retail environments when paired with glass and metal - based fixturing.*

Especially in our part of the country, wooden fixturing can be as "up town" as it is "down home."

WOOD SHELVING SYSTEMS

Several manufacturers provide top quality modular wood shelving and book racking systems. Wood types range from pine, to oak and maple with finishes ranging from natural to some of the more exotic stains. As with orders for other shelving types, it's best for you to have the following information available to us.

- DESIRED LENGTH OF EACH SHELVING UNIT OR "RUN"
- IDEAL HEIGHT OF EACH SHELVING RUN
- IDEAL DEPTH OF SHELVES AND APPROXIMATE SPACING DESIRED BETWEEN THEM

We're always happy to look at any blueprints, floor plans or notes you may already have. Call or stop by for more information and pricing!
